RAW MATERIALS

Certest Raw Materials provides high quality solutions for developing and manufacturing your IVD assays.

Our expertise in **protein expresion & purification, monoclonal antibodies development & manufacturing and primers & probes manufacturing** offer to our customers a priceless support in their challenging projects.

All our products have been properly characterized in our internal platforms and IVD products, helping us to provide our customer some useful advices about their use and performance.

Additionally, we also offer to **third parties manufacturing** and **R&D services** for the production or the development of your own materials carried out by our high qualified staff in a competitive time.

IMMUNODIAGNOSTIC

Certest Immunodiagnostic is committed to providing a comprehensive portfolio of diagnostic reagents for detecting infectious diseases and different markers, covering different needs of formats, types of use, throughput, precision, and time from sample to result.

- **IMMUNOCHROMATOGRAPHY** provides rapid test solutions for aiding the professional of diagnostic with an immediate solution, needing no equipment, and having results usually in less than 15 minutes.
- **TURBIDIMETRY** provides diagnostics solutions for automated and quantitative results and higher throughputs.
- **CLIA** provides a quantitative, high sensitivity, automated diagnostic solution based on the chemiluminescent amplification of an immunocapture.

VIASURE

by **certest**

VIASURE offers a reliable molecular diagnostic solution, from sample to interpretation of results.

Infectious diseases are one of the greatest challenges for public health, hence the primary goal of VIASURE is to bring suitable and optimized tools for a reliable detection as well as differentiation of infectious pathogens through the analysis of nucleic acids. An innovative and comprehensive VIASURE solution enables the processing of multiple molecular diagnostic assays in a standardised workflow.

Extraction kit

Quick and Automated RNA/DNA extraction kits.

V-Quick32 V-Flex

Automation. Extraction and PCR set-up.

Real Time PCR Detection kits

Lyophilized product. Ready & Easy-to-use.

V-Lab96

Run your Real Time PCR.

V-Smart

Automatic result interpretation.

certest

PHARMA

Certest Pharma is dedicated to building a platform for the Development of Nucleic Acid Therapeutics.

DELIVERY

Proprietary and top-performing **Ionizable Lipids** with Optimized and Thermostable **LNPs** for Drug Delivery.

TARGETING

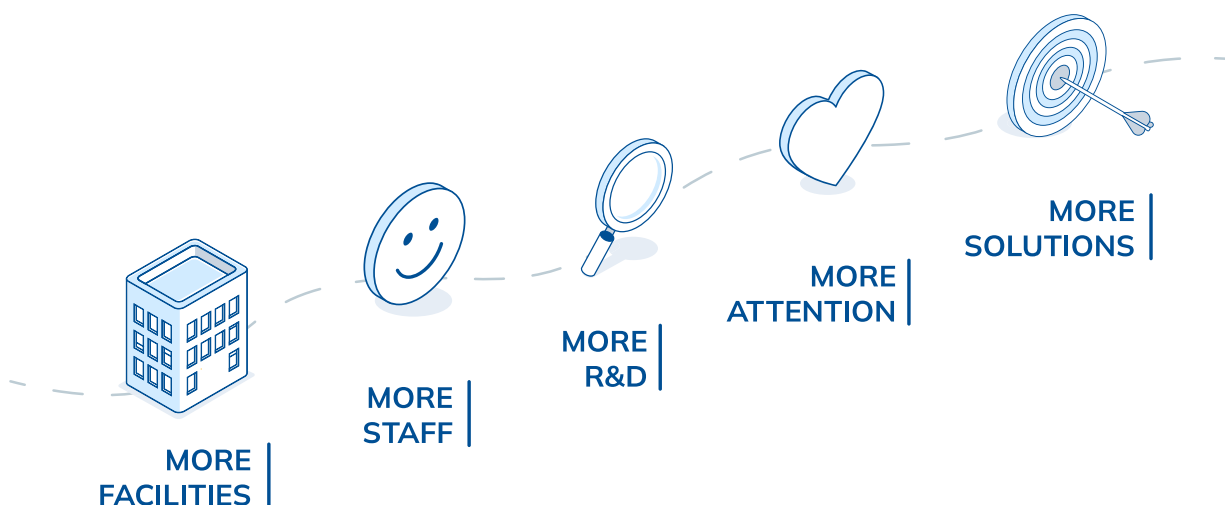

Passive Targeting enabled by Certest Lipids and Active Targeting through Peptide-conjugation strategies for precise **organ-specific delivery**.

RNAs

Design, Development, Synthesis and Scale-up of effective RNA and Oligonucleotides Therapeutic Molecules.

All these assets are available for collaborators and clients so we can **unlock the future of RNA and Oligonucleotide Therapeutics**
