

NGS

VIASURE

Viasure combines advanced reagents with an intuitive software for **seamless sequencing and data analysis**.

Our solutions are designed for speed and accuracy, integrating with leading platforms to deliver **fast, reliable, and high-quality results**.

Simple and straightforward library preparation

One-tube protocol

Ready-to-use

Everything pre-dispensed in plate

30 minutes hands-on time

Lyophilized reagents

Shipping and storage at room temperature

Microbiology

VIASURE 16S V1-V4 NGS Solution

Identification and profiling of **bacterial DNA** through V1 up to V4 domains of **16S** rRNA gene.

VIASURE Bacterial & Fungal NGS Solution

Simultaneous identification and profiling of **DNA from bacteria and fungi**, through variable domains of the **16S** rRNA and ITS genes, respectively.

Human Genetics

VIASURE Cystic fibrosis NGS Solution

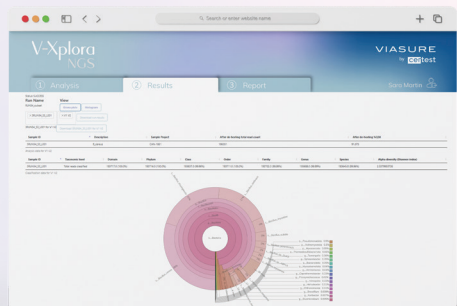

Detection of **SNP and indels** in the **CFTR** gene causing Cystic Fibrosis disease.

V-Xplora

Streamlined Sequencing Software

- ✓ Fast and powerful analysis
- ✓ Instant and customizable reports
- ✓ Minimize the technical bioinformatics expertise required

AMPLIFY YOUR RESEARCH *to excellence*
